

Legacy Meridian Park R&R Rest and Recovery

The Rest and Recovery Center at Legacy Meridian Park is a “home away from home” environment for people who need a caring environment for a brief period of time. The center is designed for guests who may require some assistance with daily activities and supportive nursing care without continuous medical supervision.

The service is managed by Legacy Meridian Park Hospital and is designed to provide a supervised home like environment with immediate access to medical care should unforeseen medical needs or pharmacy services arise.

Two levels of accommodations are available.

Short stay service is an overnight service which includes a private room, bath, telephone and television, as well as all meals and assistance with personal care and medications.

Extended stay service are stays that exceed an overnight stay and involve higher personal care support. Extended service also includes the private room, bath, telephone and television.

The rest and recovery center accommodations are not usually eligible for insurance reimbursement. Additionally, charges incurred for medical treatment (such as pharmacy services, radiology and lab) will incur an additional expense.

Frequently Asked Questions:

Do I have to bring labeled medications in their original containers?

Yes. Our pharmacy checks your medications to ensure they are correct as prescribed. They must be in their originally labeled/prescribed container or we will not be able to support you with administering them.

What if my doctor orders a medication that I didn't bring with me and I don't have anyone to go pick it up?

If your doctors communicates the order to our staff, we can fill the order through our onsite pharmacy. The filling of the order however, is not included in the set fee, so you will receive a bill at home for the medications that you received.

Is it important to fill out and return the paperwork that I received ?

We ask you to fill out and return the paperwork to us before your stay, so that we can support your rest and recovery. If you do not fill out the paperwork and return it to us early, we will need to obtain that information from you when you check in. Often, when you check in, you will want to rest because you have just completed your procedure. Turning in the paperwork early, allows us a method to respect your need for rest without disturbing you.

How do I pay for this service if it isn't covered by insurance?

There are several options for payment. We accept cash, check or major credit card at time of discharge. There are occasions when this service is included as part of the package that you purchase from your physician, in those cases we work directly with your physician.
